F. No. J-11060/7/2016-RE-III
Government of India
Ministry of Rural Development
Department of Rural Development
(Mahatma Gandhi NREGA Division)

Krishi Bhavan, New Delhi
Dated: 9th May, 2016

To

The Special CS/Principal Secretary/Secretary in-charge MGNREGA
Department of Rural Development
All States/UTs

Subject: Introduction of 'Fixed Asset Register' under MGNREGA.

Madam/Sir,

Creation of durable assets and strengthening the livelihood resource base of the rural poor is an important objective of the MGNREGA Scheme. The importance of fixed asset register, for registering the durable assets created under any scheme/ programme cannot be overemphasized. We simply tend to lose sight of valuable assets created, in a scenario where there is no well organised register for assets.

2. The list of benefits that can be derived by creating a full fledged asset register are endless, one significant benefit being that one has insights for future planning. Secondly, a good internal control require that we have physical control over our resources. Now, how does one go about implementing control measures if there is no record of what is owned? Lastly, an up-to-date fixed asset register would serve as audit evidence that any inspecting authority may require, to express their opinion on the credibility of any Mahatma Gandhi NREGA works.

3. To achieve this goal, Ministry has revised and simplified the Asset Register in supersession to its earlier Asset Register prescribed under Mahatma Gandhi NREGA guidelines. The new asset register, also known as a **Fixed Asset Register (FAR)**, is simply a physical form of record that clearly identifies all the assets that have been created under the Mahatma Gandhi NREGA, by undertaking various permissible works listed under Schedule- 1 of Act or through convergence. The register will be able to quickly retrieve information on an asset, including its description, date, location, convergence scheme, and works performed. This new register will also give the capability to track changes of an asset throughout its life-cycle from the moment it is entered into the register, and then tracking it through its various stages of development.

4. There are two Parts of the FAR.

Part A: Details of the Asset and,

Part B: Work Details of the Asset. (enclosed)

The detailed guidelines for filling up the register is also enclosed and it is important to follow instructions minutely. In the new new format, an asset can have

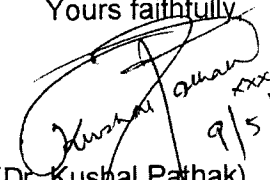

multiple works associated with it. It is imperative to explain the differentiation between works and assets, to the field functionaries, who would perform key function in filling up the FAR. The register will be maintained at Gram Panchayat level and for any queries kindly write to kushal@nic.in

5. It has been decided that during the first phase, the register should be filled for all assets created for works completed on or after 1st April 2016 onwards. Compliance for this will need to be entered into the NREGASoft MIS. The deadline for creation of asset register with up-to-date information in all Gram Panchayats is **15th June 2016**.

6. The states/UTs are requested to issue suitable instructions to all concerned and regularly monitor the creation of asset register. This is an important initiative of the MoRD and will be reviewed frequently.

This issues with the approval of Secretary, Rural Development.

Yours faithfully

(Dr. Kushal Pathak)
Director(MGNREGA)

Procedure for filling up the Asset Register

1. The Asset Register has 2 parts.
 - 1.1. Part –A Details of the Asset: having details relating to the Asset.
 - 1.2. Part – B Work details of Asset: having names and cost details of all works tagged under this asset.
2. There is a difference between Works completed under MGNREGA and Assets being created. Not all work completion will lead to creation of new asset. There may be cases where the work is performed on the existing asset created earlier under Mahatma Gandhi NREGA.
3. The work finished under MGNREGA will either create a new asset or will link up to an existing asset. When the work is finished for the first time under Mahatma Gandhi NREGA, it will invariably create a new asset that will be called as the 'Primary Work'. Any work done under the existing asset will be considered as 'Subsequent Works'. Thus, it should be remembered that, under this nomenclature each work which is completed may or may not result in creation of new asset.
4. This one asset register will be maintained at gram panchayat level. This will be a permanent register and will not be maintained year wise. New register will be opened only when all the pages of existing register are filled. All such registers will be numbered sequentially and maintained together.
